A meter will be considered accurate when it does not show an average error greater than plus or minus 2%, when compared with standards approved by the Board. The accuracy of the meter shall be determined by taking the average of the percentage registration at light load and at heavy load, giving the heavy load registration a weight of four.

Upon application by any customer to the Board, a test of the customer's meter will be witnessed by an inspector of the Board. Such test shall be made as soon as practicable after receipt of the application and upon notice to the customer and the utility as to the time and place of such test.

A fee of \$5.00 shall be paid by the customer at the time the application is made for the test, in accordance with New Jersey Revised Statute 48:2-56. Please make check or money order payable to "Treasure, State of New Jersey".
